MANIKANDAN SANTHOSH

SOFTWARE ENGINEER · LLM-INTEGRATED APPLICATIONS

+91 9944680311 | maniappu7777@gmail.com | Coimbatore, India | manikandan-portfolio-delta.vercel.app | linkedin.com/in/manikandan-s-032518285 | github.com/manikandan-ai17

SUMMARY

Software engineer at AltiusNxt Technologies building full-stack applications that use hosted LLM APIs (Gemini, Perplexity) on business data: sales prospects, product spreadsheets, PDFs and engineering drawings. Designed and built an AI-assisted B2B outreach platform from scratch (TypeScript, React), and wrote a CAD drawing analysis agent evaluated on 26 real drawings. Works in Python, TypeScript and JavaScript, mainly integrating hosted LLM APIs.

EXPERIENCE

Junior Software Developer
Present

AltiusNxt Technologies · Coimbatore

- Designed, built and deployed an AI-assisted B2B outreach platform from scratch (TypeScript, Express, React, PostgreSQL): prospect research, Gemini-drafted outreach emails with approval gates, sequences and bulk sending
- Deployed the Audit Pipeline, a Gemini-based spreadsheet audit tool with a pilot, review and approve workflow

Trainee Software Developer
Jan 2026 – Jul 2026

AltiusNxt Technologies · Coimbatore

- Assigned to CatalogWiz, a product-catalog enrichment and review platform (React, Node.js, MongoDB, Python workers calling Gemini through AWS SQS); completed roughly 60% of it before it was reassigned to another developer

AI Software Developer · Internship
Jul 2025 – Jan 2026

Deep Tech Launchpad · Coimbatore

- Built the DTLP Data Extraction Extension, a Manifest V3 Chrome extension that uses Perplexity or Gemini to extract structured product attributes from web pages, PDFs and Excel lists

SELECTED PROJECTS

B2B Outreach Platform
built from scratch · private company project

TypeScript · Express · React · PostgreSQL (Prisma) · pg-boss · Gemini API · PM2

- Multi-stage pipeline from prospect research to outreach and engagement tracking, run by a background worker queue; Gemini drafts emails and a person approves them before sending
- Bulk email (Excel import, attachments, templates, open tracking); four roles with approval separate from operation
- About 74k lines of backend and 32k of React code, 68 database models, about 3,100 test cases (counted); sole author in git history

CAD Drawing Analysis Agent
public source · runs locally

Python · FastAPI · PyMuPDF · Gemini API · NumPy

- Compares five Gemini vision passes with the PDF's own vector geometry and text; labels values HIGH, MEDIUM or LOW and reports conflicts instead of resolving them silently
- Benchmark on 26 real drawings: 90.3% dimension recall, 97.7% value precision (development set, model-labelled ground truth); hole-count accuracy only 28.6%
- 329 passing automated tests; browser workspace with evidence overlays, cited Q&A and Excel/CSV export

CatalogWiz
about 60% completed by me, then reassigned · private company code

React · Node.js · MongoDB · Python · Gemini API · AWS SQS

- In the version I worked on: spreadsheet import, Gemini enrichment (attributes, SEO text), audit-and-fix, and a React review interface; not a finished product by me

DTLP Data Extraction Extension
runs unpacked in Chrome · private repo

JavaScript · Chrome MV3 · Perplexity API · Gemini API · PDF.js

- Extracts user-defined product attributes from pages, PDFs and Excel lists to JSON or CSV; one model per run, no second-model verification, so results need review

TECHNICAL SKILLS

LANGUAGES

Python · TypeScript · JavaScript · C / C++ (coursework)

BACKEND & DATA

Node.js / Express · FastAPI · Flask · REST APIs · PostgreSQL (Prisma) · MongoDB · pg-boss / AWS SQS · pandas · openpyxl

LLM & DOCUMENTS

Gemini API · Perplexity API · Gemma (custom endpoint) · Structured JSON prompting · PyMuPDF · pdfplumber · PDF.js · Tesseract.js · Playwright

FRONTEND

React · Vite · Tailwind CSS · Chrome extensions (MV3)

TOOLS

Git / GitHub · PM2 · Vitest / pytest · Shopify API

EDUCATION

KG College of Arts & Science
B.Sc. Computer Technology
2022 – 2025 · Coimbatore · CGPA 7.1

TA Ramalingam Chettiar Hr. Sec. School
Higher Secondary
2020 – 2022
